

# DJ Antoine, Thank You

This could be the end of days  
Looking at the mess we made  
We could go our separate ways  
Or we could make the same mistakes

You saved me right from the start  
I know in my heart  
That we could survive

So let's jump into the fire

Thank you for the journey  
Thank you for the learning  
Thank you for the pain of yesterday  
Please don't make excuses  
Please don't make me lose us  
Please don't make this feeling go away  
I just wanna thank you, I just wanna thank you, I just wanna thank you  
I just wanna thank you, I just wanna thank you, I just wanna thank you

Meet me in the afterlife  
Maybe this is what it's like  
I know this is paradise  
Just by looking in your eyes

You saved me right from the start  
I know in my heart  
That we could survive

So let's jump into the fire

Thank you for the journey  
Thank you for the learning  
Thank you for the pain of yesterday  
Please don't make excuses  
Please don't make me lose us  
Please don't make this feeling go away  
I just wanna thank you, I just wanna thank you, I just wanna thank you  
I just wanna thank you, I just wanna thank you, I just wanna thank you
