

DJ Antoine, This Time (Klaas Remix)

This time
You should take me away
We stop at nothing
At all
Take a chance now
Right now
Cause now I'm losing
Control
I'm ready to go
This time
You should take me away
To a new place
Where we just might
Keep the night on the sky
This time
This time
Why don't we step out
Of line
Let's just have a
Good time
Forget the about the
To do's
And open the doors
This time
You should take me away
To a new place
Where we just might
Keep the night on the sky
This Time
This Time
