Don't touch me!

This is my world and I'm the queen! So what do you want, from me man?

I just want to feel ya body

I just want to feel ya touch

So let's get together baby

Am I asking for too much?

It is all about of love her now

So baby don't You ask me how

You don't have no choice this moment

Your my perfect woman now

If you wanna stay with me

Please just say it right to me

I'll be waiting for it yeah

Cause You're my perfect woman now

My delicate body is still warm for you

No matter that you're not listening me to

No matter how loud I scream

You won't make my dreams come true

Feel Ya body!
