

# DJ Bobo, Around The World

Refrain:

Can you feel it

Can you feel it

What it means to hold a hand

I've been around the world

Can you feel it

Can you feel it

What it means to have a friend

I've been around the world

Refrain B:

If you need a hand, you can find a friend

In every nation, of this world

If you need a hand, you can find a friend

In every nation, of this world

Rap 1:

I've been around the world, saw the desert and the rainbow

I go for the show, from the sand to the snow

Moskau to Manila, Milano to Beijing

Caracas to Capetown and back to Montreal

Stop running everyday from the pain, say no go

Driving you insane, no shame that you want let show

Call my name, I feel the same when you have sorrow

Grow let it go, there will always be a tomorrow

Rap 2:

All around the world, when you need a friend

I'll be there, anywhere, don't care, with a helping hand

Understand one another till the end

I swear, I'm fair, I care, always gonna be there

Black, white, yellow, no matter if you're young or old

All for one, one for all, that's what my mother told me

Different colours and faces, find the trace

To your base embrace this human race

Life, will flow like a waterfall

I've been around the world saw the desert and the rainbow

Rap 3:

I've been around the world, saw the desert and the rainbow

I go for the show, from the sand to the snow

From New York to Paris, Sao Paulo to London

Sidney to Munich and back to Jakarta

Huge and unforgettable China

People so open much more as I expected

Invincible pleasure in Brasil, Samba

Fond of life, there was no time to chill

I've been around the world a thousand times for sure

Could be more explore before you walk through that door
