

# DJ Bobo, Here Comes Tomorrow

Refrain:

Here comes tomorrow, the past is gone  
The future has begun, its goin on and on  
Here comes tomorrow, one step ahead  
The future has begun, no time for feeling sad

Refrain B:

Magic space, the game we play  
Connected by the highway we meet every day  
Realize, dont run away  
Were livin in the future all the way

C-Teil:

As long as love exists  
And miracles are missed  
The world will be the same  
Coming from nomansland  
Where will the future end  
Its just another game

Rap 1:

Here comes tomorrow, top it till you drop it  
No one can stop it, ticking like a bomb  
Time is running fast, dont think about the past  
Everywhere, the human race, is lost in space  
Here comes the future, the past is gone  
Its going up and down round and round on and on  
Strong upon, till the break of dawn  
Forget about sorrow, here comes tomorrow

Rap 2:

Ruled by passivity, lost in endless liberty  
Every time, every place, lost in space  
Highspeed-machines not only in my dreams  
It seems to be reality / reality  
What about the face of humanity ?  
What about the world insanity ?  
Fantasy tv, welcome to the show  
Down to number zero, here comes tomorrow

Rap 3:

Physical or virtual, emotional or logical  
The future, the point of no return  
Now is the beginning of a brandnew era  
We are close to enter the land of Utopia  
Bits and bytes are getting faster and faster  
My master leading to an overkill disaster  
What about the face of humanity ?  
What about the world insanity ?  
Fast or slow, you know let it go  
Forget about sorrow, here comes tomorrow
