

DJ Bobo, This World Is Magic

Refrain:

Dreams can make you fly
This world is magic
Rainbows in the sky
This world is magic to me
Dreams can make you fly
This world is magic
We need peace on earth
The second birth of paradise

Refrain Fills:

This world is magic
This world is magic to me
This world is magic

Refrain C:

What is the magic of this world
What is the magic of this world
What is the magic of this world
What is the magic of this world
What is the magic of this world
What is the magic of this world
We need peace on earth
The second birth of paradise

C-Part:

This world is what we share
The nature and the air
Life could be paradise
Eternal peace is what we need
To live in harmony
For human history
Pray for a better world
When you close your eyes again

Rap 1:

Planet earth, thats the name of my place
Im born in this world, in the entire space
Planet earth, is my home, is my face
Follow your trace embrace this human race
In case, theres a new decade in human history
Im talking about respect this is my destiny
Feel free, and stop running away
From the doubt in your mind,- never fade to grey

Rap 2:

Planet earth, gentle and blue
Then cold as a rock, or ice without a hue
Planet earth, made out of dust
A big ball of metal, condemn to rust
Pray, let your soul be free
Find out how to heal a bleeding wound dont stand around
Life could be paradise, peace on earth is what I found
All around in a magic world from the air to the ground
