

DJ Fresh & Adam F, Believer

Our world is so divine
I feel love for the first time
Careful now those you let near
On my side there's no more fear
I believe in my own life
No more trouble and no more strife
I believe in my own life
Feel so happy for the first time

I'm a believer
I'm a believer

When you need it, need it
When everybody knows you don't mean it, mean it
When no one in your life is real, real
Bad Company's eternal leader, I feel you (drop)

My world is so divine
I feel love for the first time
You and me, we're on the line
Now I won't let them keep me behind
I believe in me, I believe
Now I'm feeling good energy
I believe in you, I believe
Took so long to be living free

I'm a believer
I'm a believer

No more crawling, no more stalling
No more lonely phone calling
No more burning, no more yearning
No more broken hearts

I'm a believer
I'm a believer
