DJ Jazzy Jeff & Fresh Prince - The Things that U Do Lyrics

(Intro/Chorus)

It's just the things that you do (5x) The way you do the things you do

(Verse 1)

8:05, the alarm clock sound  
I grab my shoe and turn the damn thing down

But now it's 9 o'clock I still ain't up up yet

Work on time, yeah I admire the concept  
You got me yearnin and I'm anticipating  
Seeing you I can't wait its hard to concentrate  
My mind is blind from all the time, thinking of you  
And the way you do things you do

(Chorus)

(Verse 2)

I walk in the park or a midnight rendezvous

A slow dance, romance, my motive is see through

I wanna be with you

But I ain't hiding  
A wave of love and I'm gliding and ridening  
Things like that when you hear me  
Sayin' sort of sounds like that same old clich  
Climb the highest mountain swimming the deepest sea  
But I can't front, I want you to be want me  
Cause baby when you grab me tightly  
You send chills and tend to excite me  
When you caress and fondle me lightly  
Oh girl watch up cause she might be  
Settin' yourself up the way that you tease me  
Sooner or later you might have to please me  
It's just something about you  
The way you do things you do

(Chorus)

(Verse 3)

Now why oh why would an incredibly fly guy like me  
Be chasing one lady  
It's just something about you  
The way you carry yourself when you're out you  
Seem to have a sort of captivative style, I've parked the feelin'  
But your whip is appealing  
Since this is a subject that I brought up  
I just mind as well admit that I'm caught up  
It ain't the clothes you're wearin'  
Your perfume or the style that that your hair's in  
It ain't your body, how slim your waist is  
Your new jeans and how pretty your face is  
But I feel funny when it close proximity  
Making mewonder what's gettin' in to me  
It's just something about you  
The way you do the things you do

(Chorus)

(Bridge)

It's nothing that you do (2x)  
The way you do the things you do

(Verse 4)

The mysteries of this world I ponder  
Just sittin' back let my mind wonder  
What the, why the, who the, how the hell is this young lady  
Drive me so crazy  
Deeply in thought pose like the thinker  
I blow you a kiss or a wink  
Or a smile just to show you  
It's something about you

(feeling kinda odd)

The way you do the things you do  
Come here, come here  
Come on out, don't worry  
You want me to chase you don't you?  
Just come here, I've got you now  
Sss  
The way you do the things you

(Chorus)

It's just the things that you do  
(the way you do the things you do) (10x)  
(Bridge)

The way (repeated several times)
