[Chorus: Chinky Brown Eyes]

Let's do it in the mornin  
Let's do it all through the night  
I wanna feel your sweet face  
I wanna feel it next to miiiiine  
I love it when you, hold me  
My body can't refuuuuse  
It's the way you make me feel when I'm in love  
Let's do it again

[Lala]

Don't wanna ride in your Six tonight  
I don't want you to trick tonight  
You ain't gotta pop Cris' tonight  
I don't care what's on your wrist tonight  
I just want you to get me right, hit me right  
I always take care of my baby boy  
Lay you back on that Laz-E-Boy  
You get me wet like the Navy boy, goin crazy boy?  
Twist Lala, come through, blaze me boy?  
Feel my foreplay all day  
Let's role play, I'll be the French maid  
Or the stewardess, jeans fit like {?}  
Ride and won't move a inch 'til you can't move and shit  
Homie, I miss the way that you kiss and hold me  
How you put it on me, never leave me lonely  
Yeah I want it tonight, I want it all night  
I want it from him, I wanna do it again

[Chorus]

[Tiffany]

You know I'm starin in the mirror just thinkin 'bout you  
About the, things you say and things that you do  
Like when we, on the phone or we, home alone  
and ya, touch that spot that always, makes me moan  
You got that energy baby Tiffany can't refuse  
And I don't know how the hell I can live without ya  
You make me happy when you leave little, notes around  
And I know you sincere by the way that you sound  
Like when I call ya in the mornin and you wake up and ya yawnin  
but your baby's on the line, and it sounds like she's been cryin (cryin)  
Then you arrive with your arms open wide  
Uhh, that's how I know, everything's aight  
And I love it when you kissin me, holdin and caressin me  
Slowly undressin me and slidin ever so gently  
Damn, I'm in love, and I'm head, over heels  
for a man, that's a man, and knows how, I should feel - f'real

[Chorus]

[Steph Lova]

I'ma be honest y'all, check it  
I never been in love before baby this is all new to me  
It's - more than the sex, it's the little things you do for me  
Like - he makes me laugh when I really wanna cry  
And - he even helped a bitch stop gettin high  
And - gave me the down payment on my first whip  
Then I crashed it a week later; he ain't even trip  
I said he like the way I lick my lips, and now he's sprung  
And them other chicks is just too, dum-ditty dumb dumb  
See, he's my number one fan, and I'm his co-D  
We Mickey and Mallory, Beyonc and Jay-Z  
+Crazy in Love+ in the back of the club  
With the, Drama King and a couple of thugs  
Here's a, toast to us; they wanna get, close to us  
&quot;ME AND MY BOYFRIEND!&quot; Dangerous  
From the &quot;windows to the walls,&quot; my +Milkshake+ is +Magic+  
We gon' +Do it Again+, cause baby gotta have it

[Chorus]
