

# Dj Project, Loosing You

I lose myself inside your eyes  
I lost my heart inside your arms  
When we make love under the stars.  
Skin on skin we glow indeed  
The night is young, your mind to keen  
Inside your arms I want to sleep...  
I wanna feel your heart is mine  
You are too far lost in the night  
And I am loosing you...  
Another day, another year  
Too many faces, love is true  
I know you miss me too...  
Burning fire in your hearts  
When you the day is gone  
Raindrops falling down tonight.  
I free the feelings, let them run  
Tonight my heart is your own drum  
Rhythm's calling home the night.
