

Dj Ross, Emotion

Lonely, lonely, lonely

Hey, you're never alone on your way
open your eyes I'm here again
movin' on, movin' on, movin'on

lay down on me and don't be afraid
I'll be your game and take my hand
so we can play and
movin' on, movin' on, movin'on

Sometimes I feel you're gonna break down and cry
I wanna see the moonlight deep in your eyes
I wanna stand with you my baby and you'll never be lonely,
lonely

Sometimes I feel you're gonna break down and cry
I wanna see your body that moves in the night
I wanna see you shine
baby , you'll never be lonely, lonely
