

DJ Tiesto, Do You Feel Me

As darkness comes you sleep alone
I watch the one I've always known
Turning the corners of your mind
Am I the focus of your smile?

Da da dum, da da dum, da da dum, on the summer breeze
Somehow sinking softly into you
Da da dum, da da dum, da da dum, hear the whispering
Always there no matter what you do

I can't stop falling when my heart comes calling
Do you feel me?
Warming you like rays of sunshine
I can't stop falling where my heart comes calling
Do you feel me?
Warming you like rays of golden light

Summer breeze
Whispering, whispering
Summer breeze
Whispering

These shadows hide your deepest fears
If only you knew I was here
You're safe and sound beneath my gaze
You have no need to be afraid

I am here
Everywhere

I can't stop falling when my heart comes calling
Do you feel me?
Warming you like rays of sunshine?
I can't stop falling where my heart comes calling
Do you feel me?
Warming you like rays of golden light?

Da da dum, da da dum, da da dum, on the summer breeze
Somehow sinking softly into you
Da da dum, da da dum, da da dum, hear the whispering
Always there no matter what you do
