

DJ Tiesto, Hear You Now

Your eyes they look the same as mine
We can see this way of life
Your eyes they look the same as mine
Guess you knew this for the longest time

Im walking through the corridors
Follow the trace of tears on the floor

Trace of tears left
Trace of tears left

and I hear you now we have to find another way
and I see you now I see you in so many ways
and I hear you now we have to find another way
and I see you now I see you in so many ways
