

DJ Tiesto, Tears From The Moon

Couldn't sleep,
so I went down walking.
Thinking about you,
and hearing us talking.
And all the things I should have said,
echo now inside my head.

I feel something falling from the sky
I'm so sad I made the angels cry

Chorus:
Tears from the moon
Fall down like rain
I reach for you
I reach in vain

Tears from the moon
Tears from the moon

It just ain't fair
this thing called loving.
When one stands there
the other feels nothing.
I would have done anything for you
I still love you, baby I adore you.

All day I keep from falling apart
But at night when the sky gets dark

Chorus

Stop, stop hunting me
It should be easy,
As easy as when you stop wanting me.

Chorus

Tears from the moon
Fall down like rain
but tears from the moon
Can't wash away the pain

Tears from the moon
Tears from the moon
Tears from the moon
