

# Do Or Die, Alpha And Omega

[Do or Die]

The alpha is the beginning  
The omega is the end  
The alpha is when you do  
The omega is when you die  
So the alpha omega is when you do or die

It's unexplainable when I drop that ass like a 64  
Bitches from niggas to niggas to bitches and cops know  
I'll appeal make a mothafucka do a cartwheel and I steal  
Bust lust in broad day fuck what those marks say  
I'm breaking em off like dog legs  
When they try to parlay thats when you all dead  
I have the zone call all red (all red)  
We on a area shit as small as atoms can bust yo shit  
Thats we packs and make stacks now who you fucking with  
(don't have no backup)  
Who you ducking with south explainitory in your crew role  
No love no glory as I come crucial  
Like gunflick handle your function dicks in dirt by bunches  
And throw shit when I come like bitchable hood shit

I'm smoking bitches like a cigar  
We are them nigga be putting bitches in back of the kizar  
But so far I, pop that trunk see the lake front  
(dump those bodies, dump those bodies)  
What men won't do to his enemies as I proceed  
To split this bitch like a philly  
Feel me believe me and see me in 3D  
Have you heard I will use my 3rd eye  
Murders occur when I demonstrate eliminate the witness  
Survival fitness don't need no mix to handle my business  
Yes you guessed it I'm double breasted  
When I flex shit 34 shots requested no exit  
In the land of closed casket and this ain't the last shit

[(chorus) 2x]

Alpha (alpha) and omega (omega)  
The beginning (beginning) and the end (and the end)

I'm on some midwest throw slug to the chest shit  
Putting slugs where your vest fit (vest fit)  
Camouflage I come with shit thats hard to dodge  
Raise up like a garage I'll seem like a mirage  
In the land again just to blame the men with my  
Idiotic hypnotic disco tendencies  
Give it to ya like a centerfold when pop the individual  
(pop the individual, pop the individual)

Bend yo' fuckin ass like a pretzel  
Lord living them gangsta shit that sounds too incredible  
Flex like solo toss like a photo erupt like volcanoes  
Omego my flow sounds too evil  
Into the land we go the warland of no men  
Material black nigga know not to fuck with  
We buck quick they duck quick  
Coming far from this steel piece  
Individuals start to decrease and release those spirits  
You hear it, you hear it, you hear it
