

# Dog Is Dead, Do The Right Thing

If you could see my intentions  
You could see I'm here for the ride  
You say you want the view from the pavement  
You say you want a regular life

I met somebody else who made a story of it  
She said we're all just puzzle pieces in denial  
And I can hold myself together, be a man about it in time

And leaving was the right choice  
And I'll face you when I'm feeling right

Do the right thing  
Do the right thing  
Give me a call when you're sober  
Do the right thing  
Do the right thing  
Give me a call when it's over

If you give me the right direction,  
You can save me running a mile  
And I'll be at the queue at the station,  
And I'll be at the back of the line

Love just came and swept me up  
Like hurricanes I'd never seen  
If I decide to kiss goodnight  
The person that I used to be  
It hurts me to think you could meet somebody else in the backroom

And leaving was the right choice  
And I'll face you when I'm feeling fine

Do the right thing  
Do the right thing  
Give me a call when you're sober  
Do the right thing  
Do the right thing  
Give me a call when it's over

Now my lovers gone, where are we?  
Spring-tide juveniles in a breeze

Do the right thing  
Do the right thing  
Give me a call when you're sober  
Do the right thing  
Do the right thing  
Give me a call when it's over
