

Dogma, Bridge To The Outside World

Freedom is separation
From dreams that keep you under sedation

If I could stand strong enough to face it all alone
I would see clear enough to touch the sky and walk away
If I could find a way to walk away
On a bridge to the outside world

Lonely with an invitation
You told me without hesitation
That freedom takes a clear intention
And dreams make boring conversation

If I could stand strong enough to face it all alone
I would see clear enough to touch the sky and walk away
If I could find a way to walk away
On a bridge to the outside world

If I could find a way to walk away
On a bridge to the outside world
On a bridge to the outside world
On a bridge to the outside world

If I could find a way
