

Dogs Damour, Victims Of Success

(3:09)

Baby monoxide comes into town on a greyhound bus looking rather brown, orders a bottle puts it away orders another and proceeds to say, we lean on each other through this success bitch at each other an it makes a mess

Victims of success

Borrowing clothes, stealing cars, using fuel the kind you find in bars lyin' in the gutter looking at the stars

Who says it never happens that way

Who says it never happens today

Victims of success

Yesterdays punks on the cover of the rolling stone

Yesterdays punks could buy a Beverly Hills home

Victims of success...
