

Dogstar, Bleeding Soul

I don't wanna be here
but I need to be here
I really wish that I could
I really feel the need to
let my body go
let my feelings show

here comes another worn out
here comes another burned out
here comes another bleeding soul . . .

I don't need to kiss it
I don't need to touch it
I really wish that I could
I really feel the need to
let my body go
let my feelings show

here comes another worn out
here comes another burned out
here comes another bleeding soul . . .

here comes another worn out
here comes another burned out
here comes another bleeding soul . . .
