## Dogstar, Bleeding Soul

I don't wanna be here but I need to be here I really wish that I could I really feel the need to let my body go let my feelings show

here comes another worn out here comes another burned out here comes another bleeding soul . . .

I don't need to kiss it I don't need to touch it I really wish that I could I really feel the need to let my body go let my feelings show

here comes another worn out here comes another burned out here comes another bleeding soul . . .

here comes another worn out here comes another burned out here comes another bleeding soul . . .
