

Dogstar, Stagger

To dream a dream
Is dangerous it seems
To hold yourself to the light
To fill your needs

Don't blow us up
That's so messed up
To hold yourself to the light
For the need to be seen

She staggers on
Still on her feet
You can take on the world
But she won't be beat

To dream a dream
Is dangerous it seems
To hold yourself to the light
To feel the enemy

You blew us up
That's so messed up
You held yourself to their light
For the need to be seen

She staggers on
Still on her feet
You can take her down
But she won't be beat
