## Dolly Parton, A Heartache Tonight

Can't say we're lovers, can't say we're friends Don't even know if I'll see you again But against your warm body I felt so alive And you got me over a heartache tonight My heart was broken, my hurt was deep I had lost something I wanted to keep Lookin' for comfort when you caught my eye And you got me over a heartache tonight Chorus:

Sweet conversation, a drink and a dance

Led to an evening of making romance And I don't even care if it's wrong or it's right 'cause you got me over a heartache tonight

2nd chorus:

Yes, you got me over a heartache tonight Stirring up passion brought me back to life Oh, and it may not last, but who know it just might But you got me over a heartache tonight Yes, you got me over a heartache tonight
