## Dolly Parton, Fresh Out Of Forgiveness

Don't tell me you're sorry for thing you caused me And from from now on you'll be true And don't don't you ask me to forgive you again I'm fresh out of forgiveness for you

Now I, I gave you everything I knew how to give Now I've done done everything you've ever asked me to do But even even a fool gets so tired being fool I'm fresh out of forgiveness for you

No I I can't I just can't I can't forgive you this time if I did oh I know you do Well you're just too just too wrong and you hurt me hurt me again And I'm fresh out of forgiveness for you I'm fresh out of forgiveness for you
