

# Dolly Parton, Through Thick & Thin

The road of love is steep it's a hard climb all the way  
To stay in love we must keep working at it every day  
We have our ups and downs but we take it with a grin  
Cause we've promised to stick together through thick and thin  
We don't always see eye to eye and we don't always agree  
But every day we both try to make each other happy  
And if we have a quarrel we'll just kiss and try again  
Cause we've promised to stick together through thick and thin  
We've promised to stick together that's what we're gonna do  
We won't let our love grow old we're gonna keep it new  
Hard times may hit us maybe just around the bend  
But we've promised to stick together through thick and thin
