

# Dolour, So, So Sad

Looks like you don't know me too well  
You're just as insecure  
I need more time to make sense  
Of something I've lost  
A children's tune  
Lately I've been praying god's will is as good as mine  
But what can you do when you just can't say no

I can get so so sad, Don't let me get so so sad...

The century came and went, and well  
What a wild waste of time  
I try, oh I try to sound sweet  
But its hard to sound like anything  
When you're hanging from the ceiling

I can get so so sad, Don't let me get so so sad...  
The days and nights go dancing with me  
(Lord, can you hear my heart singing)  
The days and nights go dancing with me

I can get so so sad, Don't let me get so so sad...
