

# Dominici, I Found My Love

While praying in the park today  
The fairest girl did pass my way  
I confess my mind did go astray  
Another kind of heaven  
I convinced myself it was ok  
I could always pray another day  
She was like a prayer anyway  
A different path to heaven

I found my love  
I did not expect it  
I found my love  
Days were turning into months soon after  
I was living just to hear her laughter  
Dancing in the park-the very spot  
Where I used to pray  
I admit that I did go astray  
I knew there would be a price to pay

I found my love  
I did not expect it  
I found my love  
Now I must protect it
