

Dominik Dudek (Redford), Sleepyhead

You are my sleepyhead
You're sleeping all night and
You're sleeping all day
I wanna take you somewhere, my babe
But you're sleeping all day,
And you really don't care

It's really hard to wake you up
You're floating in this little room
And all these fairy tale dreams
They just make you feel good
You look so cute, I won't deny it
But I know something's bothering you
We shouldn't complicate it
You know what we have to do.

You are my sleepyhead
You're sleeping all night and
You're sleeping all day
I wanna take you somewhere, my babe
But you're sleeping all day,
And you really don't care

You are my sleepyhead
You're sleeping all night and
You're sleeping all day
I wanna take you somewhere, my babe
But you're sleeping all day,
And you really don't care

It's really hard to watch you cry
When it's not the nightmares' fault
And all the monsters in your life
Make you want to sleep too long
I will make them disappear
Leaving space for your beautiful dreams
Now it's time to wake you up
Let me take you for a ride

You are my sleepyhead
You're sleeping all night and
You're sleeping all day
I wanna take you somewhere, my babe
But you're sleeping all day,
And you really don't care

You are my sleepyhead
You're sleeping all night and
You're sleeping all day
I wanna take you somewhere, my babe
But you're sleeping all day,
And you really don't care

You are my sleepyhead
Yes, you are
Yes, you are
You are my sleepyhead
Yes, you are

You are my sleepyhead
You're sleeping all night and
You're sleeping all day
I wanna take you somewhere, my babe
But you're sleeping all day,

And you really don't care

You are my sleepyhead
You're sleeping all night and
You're sleeping all day
I wanna take you somewhere, my babe
But you're sleeping all day,
And you really don't care
