

Domo Wilson, Can We Fall In Love Again

I don't wanna break baby
you make the pain go away from me
cause when you're around
I feel unfound, when I am down
you lift my crown
got me feeling so good

I am so down
can you lay nex to me
hold me
and fdon't make a sound
can we fall in love again?
before we were one baby
we were best friends
can we fall in love again?
bad times or not baby
you are my rock baby

I remember when we used to chill at your house
laying all on your couch
kissing all in my mouth
you took me out
show me around
and held my hand
never thought I'd love a man
never thought I'd understand babe
