

# Don Gibson, Blue Dream

Last night I had a blue dream cause in my dream you told me we were through  
I cried cause in my blue dream I saw you away with someone new  
And then beside the blue stream I saw him makin' a fairy love to you  
Last night it was just a blue dream  
But tonight I'm blue because my blue dream came true  
[ guitar ]  
And then beside the blue stream...
