

Don Gibson, Time Hurts (As Well As It Heals)

You say that in time I'll forget how I feel but time hurts as well as it heals
You tell me you're sorry you know how I feel
But do you tell me do you know that my love is real
The hours pass slowly when you love someone still
And time hurts as well as it heals
The mem'ries of you the heartaches and blues
The dreams that I've planned I know won't come true
You tell me that time will erase how I feel but time hurts as well as it heals
