## Don Gibson, Time Hurts (As Well As It Heals)

You say that in time I'll forget how I feel but time hurts as well as it heals You tell me you're sorry you know how I feel But do you tell me do you know that my love is real The hours pass slowly when you love someone still And time hurts as well as it heals The mem'ries of you the heartaches and blues The dreams that I've planned I know won't come true You tell me that time will erase how I feel but time hurts as well as it heals
