

# Don Henley, Land Of The Living

Well, it's up in the mornin'  
Everybody off and runnin'  
Everybody got some place to be  
Some people never go walkin'  
Some people just stop talkin'  
And I was slippin' away  
You came and pulled me through  
I wanna stay in the land of the living with you  
I wanna stay in the land of the living  
I wanna stay here with you  
I wanna stay in the land of the living  
I wanna stay here with you  
We work and we worry  
This old world's in such a hurry  
So many things we just don't see  
Some people always cryin'  
Some people just stop tryin'  
And I was slippin' away  
You came and pulled me through  
I wanna stay in the land of the living with you  
We hot to do what we can  
about all this pain and sorrow  
But try to live just a little  
We could all be gone tomorrow  
When I look at you girl, me heart rejoices  
You taught me somethin':  
Considering the choices-  
I wanna stay in the land of the living  
I wanna stay here with you  
I wanna stay in the land of the living  
I wanna stay here with you
