

Don Philip, I Don't Like You Anymore

Something strange goin' on
I feel a change comin' on
In my chest I feel unrest
Way down deep, baby
You need to hear me when I say
When you're near me it's not the same
As it used to be with you and me
A secret I can't keep

CHORUS:

'Cause now I'm feeling something new
Something deep, something true
Don't misunderstand me when I say
I don't like you anymore

I can't ignore that now it's love, that now it's love
Now it's love I'm feeling for ya
Now I see I was blind
How could I be so unkind
When you were the one, the only one
Who loved me so, yeah
What I'm feelin' now for you
Is something different, something new
And now I find I think it's time
To let you know

CHORUS

I don't like you anymore
Not like the way I did before
I don't like you anymore

CHORUS
