

# Don Philip, Keep My Heart In Mind

I've tried to tell you, tried to make you see  
We're good together, we are meant to be  
You say you're not sure what you're looking for  
And there's nothing that I can do  
I should have seen it guess I should have known  
You need your freedom get out on your own  
But if there comes a day when you lose your way  
And there's nothing that you can do  
I only ask that you

Keep my heart in mind  
Just remember there may come a time  
When you're gonna see  
I'm what you need  
The one true love you always hoped to find  
So keep my heart in mind  
Girl, you can call me anytime at all  
I'm right here for you if you need to talk  
I'm willing to wait it's never too late  
If there's something that I can do  
I only ask that you

Keep my heart in mind  
Just remember there may come a time  
When you're gonna see  
I'm what you need  
The one true love you always hoped to find

So keep my heart in mind  
Girl, you can call me anytime at all  
I'm right here for you if you need to talk  
I'm willing to wait it's never too late  
If there's something that I can do  
I only ask that you

If there's something that I can do  
I only ask that you

Keep my heart in mind  
Just remember there may come a time  
When you're gonna see  
I'm what you need  
The one true love you always hoped to find  
So keep my heart in mind  
Girl, you can call me anytime at all  
I'm right here for you if you need to talk  
I'm willing to wait it's never too late  
If there's something that I can do  
I only ask that you

If there's something that I can do  
(Keep my heart in mind)  
Girl, you can call me anytime at all  
If there's something that I can do  
(Keep my heart in mind)
