

Don Philip, Music Sounds Better With You

I love the way you speak
I love the way you cry
I love the time we spend together
And I love the way you love me
In a way that no one else has before

When the lights go down
and play are song and we're together
and we have no place to go
we'll stay here for awhile
and the music
sounds better with you

Now stay with me, until this song ends
and to understand why
I'm here with you
And open up your heart to
And we'll find a way to make this song
never end

When the lights go down
and play are song and we're together
and we have no place to go
we'll stay here for awhile
and the music
sounds better with you

dancing here with you
there's no place I rather be
because that look in your eyes
the way you look at me
I see that there's no one, you rather be with
And I know that's where I meant to be

When the lights go down
and play are song and we're together
and we have no place to go
we'll stay here for awhile
and the music
sounds better with you

Now baby the music, the music, the music
dancing to the music, dancing here with you
Now baby the music
it always always sounds better with you

When the lights go down
and play are song and we're together
and we have no place to go
we'll stay here for awhile
and the music
sounds better with you

When the lights go down
and play are song and we're together
and we have no place to go
we'll stay here for awhile
and the music
sounds better with you
