

Don Philip, You Got Me

You're got me, you're got me

Ow, there no time for me, to do the thing
I want to do with you
But even throw I don't have the time
I gonna do the thing, anyway
Cause with out you, there no point in liven
Or braving air the around
Cause your my would
Youe my sky, youe my hold universe

Chorus

You got me, lit lick a fire
You got me, picked up and higher
You got me right where you want
And I do what you say
Just to make it happen
Cause you got me

When I met you, I know that thing
Would never be same
Cause there so much to do, and so little time
in which do it in, and that ant right
But I gonna make the time, no matter what
Cause with out you I not you, and me know
Your my would
Youe my sky, youe my hold universe
cause

Chorus

You got me, lit lick a fire
You got me, picked up and higher
You got me right where you want
And I do what you say
Just to make it happen
Cause you got me

Summer comes
And I wish it could stay forever
Cause, then would be able
Spend all the time in the would
Just to make you happy
Cause Your my would
Youe my sky, youe my hold universe
Cause

Chorus

You got me, lit lick a fire
You got me, picked up and higher
You got me right where you want
And I do what you say
Just to make it happen

Is all that I need to get me throw the day
Ow that what I need theses days
And wel be together forever
No matter what
Cause Your my would
Youe my sky, youe my hold universe
Cause
