

Don't Look Down, All Those Times

All those times when I was down you picked me up off of the ground
And I see your face and everything's ok
And when I'm alone you don't hesitate to pick up the phone
And you always know just what to say

I'm going down I'm going nowhere...without you

Maybe now you'll understand just what I think and how I feel, my words
are true and this time it's for real
We tried it once now things have changed,
changed for the best and I hope
you see that I'm not like the rest

I'm going down I'm going nowhere...without you

Things just seem better, when your around
Your smiling face, never has a frown
Cause I lost you once, never again
Cause you're my girl and my best friend

I'm going down I'm going nowhere...without you
