

# Don't Look Down, Can You Hear Me?

Time keeps slipping away  
And I'd hate to say  
I Never tried, to read your eyes  
So please, take a seat next to me  
Find a place you can be your self  
There's no one else.

Can you hear me?  
Can you hear me now?

Just a face in the crowd  
I want to scream out loud  
Rescue me, you're everything I need  
I just don't know what to say  
All that I know is I feel this way  
Cant you hear my heart sing

Can you hear me?  
Crying out loud  
Your breaking me down  
Can you hear me now?  
Can you hear me?  
Crying out loud  
Your breaking me down  
Can you hear me now?

I thought of this moment a million times  
How can I get this right?  
Waiting for your eyes find me here  
I practiced this part almost every day  
Every word you might say  
And now here we are

Can you hear me?  
Crying out loud  
Your breaking me down  
Can you hear me now?  
Can you hear me?  
Crying out loud  
Your breaking me down  
Can you hear me now?

Time keeps slipping away  
And I'd hate to say  
I Never tried, all this time.
