

Don't Look Down, Start The Show

Life isn't funny when your working yourself out
Get in or get out
I'm standing by myself
In your room, It's so crowded
Just let me out:

Just let me out
Been through it a thousand times before
(Been through it a thousand times before)
I won't regret this anymore

[Chorus:]
All the songs have been sung
All the wrongs have been done
Time now for
Me to go
Time now for
Start the show

Last Night I had a dream that I did not wake up
I lied in bed all night until my eyes would shut
I dreamed of you
(I dreamed of you [x3])
But I'm so different from the person that you once knew

Just let me out
Been through it a thousand times before
(Been through it a thousand times before)
I won't regret this anymore

[Chorus]

Start The Show!!..
Been through it a thousand times before
(Been through it a thousand times before)
I won't regret this anymore

[Chorus]

Start The Show!!..
