## Don Williams, Come A Little Closer

Now Stop that small talk, turn that light off, it aint my fault, you look so fine; My hearts achin, and I aint fakin, I dont ask for much of nuthin', I just need a little lovin;

Come on babe, come a little closer, honey move it over, feels so right, Pull that shade, just a little lower, come a little closer, baby tonight.

Now put that phone down, shut that door now, lets just think about, me and you; My hearts racin', time is a wastin, I dont want much of nothin, a little kiss a little hugin

Come on babe, come a little closer, honey move it over, feels so right Now pull that shade, just a little lower, come a little closer, baby tonight

<guitar break&amp;amp;gt;&amp;amp;lt;steel break&amp;amp;gt;

Cut off that late show, turn that lamp low, honey you know, how I feel; My hearts beatin, the night is pleasing, I aint asking that much of ya, all I want to do is love ya;

Come on babe, come a little closer, honey move it over, feels so right Now pull that shade, just a little lower, come a little closer, baby tonight.

Now come on babe, come a little closer, honey move it over, feels so right And pull that shade, just a little lower, come a little closer, baby tonight.
