

# Don Williams, Come Early Morning

I been walking, walking in the moonlight  
Tripping in the starlight, Lord and I'm feeling down  
Walking in the shadows, sneaking down a side road  
Come early morning I'll be there on the edge of town  
I was a thinking, thinking bout a good thing  
Thinking bout a sweet dream, in my honey's eyes  
And I was a sinking', feeling kind of lonesome  
Come early morning I'll be home at my honey's side

CHORUS:

I have drifted up across the mountain  
and I have stumbled down the other side  
And I've been tempted, tried and troubled  
Come early morning I'll be home and satisfied  
She give me little loving, gives me little sunshine  
Makes me have a good time, Lord when I'm feeling' blue  
I couldn't refuse her, well I couldn't misuse her  
Come early morning I'll be home with my honey dew
