

Don Williams, Don't You Think It's Time

Don't you think it's time for us to work it out
Don't you think you know what it's all about
Don't you think it's sad living all alone
So don't you think it's time for us to get along
We know the songs of all the wrongs
Love that died, nobody tried
But here and now I know what's true
I can't live without you
So don't you think it's time for us to work it out
Don't you think you know what it's all about
Don't you think it's sad living all alone
So don't you think it's time for us to get along
Find the page that says we're old
Is love at home or is it cold
