

# Don Williams, Especially You

(Rick Beresford)

I see the rainbow in your eyes,  
I see all the colors pass me by  
I sure like the things my eyes can do,  
Especially when they see you.

I hear the music of this day,  
I sure like the songs this world can play  
But most of all I like your tune,  
When you whisper I love you.

My senses don't like, I get a definite high  
When you're near I feel clear off the ground  
Reach for my arms, and I will give you the stars  
There is nothing that is holding us down.

I touch the textures of this earth,  
I felt for the good and I felt for the worse  
But I never knew what a touch could do  
Until I was touched by you.

My senses don't like, I get a definite high  
When you're near I feel clear off the ground  
Reach for my arms, and I will give you the stars  
There is nothing that is holding us down.

I see the rainbow in your eyes,  
I see all the colors pass me by  
I sure like the things my eyes can do,  
Especially when they see you...
