

Don Williams, If You Love Me, Won't You Love Me

If you love me won't you love me like you love me
If you want me won't you touch me like you want me
Oh baby just hold me tight I need to know that you mean it tonight
If you love me won't you love me like you love me

The night's still and warm we lie alone in the dark
I light a cigarette watch your silhouette next to me
Not a word is said but a million things go through my head
And I wonder why our love's not like it used to be
Something tells me I'm losing you but oh baby don't let it be true
If you love me won't you love me...

So I reach out to you you come to me like you used to
But something's changed it don't feel the same anymore
Oh show me we're not through oh baby I'm begging you
If you love me won't you love me...
