Don Williams, In The Mornin'

When the sun comes up
And it's time to get up in the mornin'
Will you think of me
And how it oughta be in the mornin'
Well, I don't know why
You could say goodbye
And I can't see how you could be
Anywhere but here with me
In the mornin'.

Where was I When you made your move to go away Where was I I didn't hear the things I've always heard Or always said.

--- Instrumental ---

Well, it's no lie I never thought about it, not a day And I'll tell you why I really thought we always tried to say What should be said.

When the sun comes up
And it's time to get up in the mornin'
Will you think of me
And how it oughta be in the mornin'
Well, I don't know why
You could say goodbye
And I can't see how you could be
Anywhere but here with me
In the mornin'...
