

# Don Williams, It Only Rains On Me

I know all about black clouds, there's one that follows me around  
It may sound funny but somehow, it only rains on me  
It follows me almost everywhere, and it seems its hardly fair  
People will stop and people stare, but it only rains on me

CHORUS:

Broken dreams and drowned parades, lovers who just slip away  
Guess I learn to live that way, it only rains on me  
Seems to me there was a time, it used to rain on friends of mine  
Now I look around and find, it only rains on me  
I'll bet this won't hurt you much, you'll find someone soon enough  
I'm the one that loses in love, it only rains on me  
It's time we said goodbye and so, I'll just take my cloud and go  
Don't worry you'll forget I know, it only rains on me
