

# Don Williams, Magic Carpet

Wish I had a magic carpet together we could fly  
We could sail away together & watch the world go by  
If I had Alladin's lantern I'd know just what to do  
Cause all I'd need to do is touch it to make my dreams come true  
But I don't have a magic carpet & magic lamps are hard to find  
And I can't conjure up a secret potion to steal your heart & make you mine  
All I've got's a 4 leafed clover that's my only good luck charm  
But I get a magic feeling all over thinking about you in my arms  
No I don't have a magic carpet, magic lamps are hard to find  
I can't conjure up a secret potion to steal your heart and make you mine  
All I've got's a 4 leafed clover its my only good luck charm  
But I get a magic feeling all over thinking about you in my arms
