

Don Williams, My Woman's Love

Nighttime finds me reaching out to you
Days are only waiting time it's true
Lovely lady you're so warm and fine
I just can't believe that you're all mine
Even in my dreams you're calling me
Saying things I just can't believe
Cause everything you say is oh so fine
I can't believe your woman's love is mine
Two lips that love and never tell me no
Two eyes that see and set my heart aglow
Two arms that hold me like no one could know
I could never leave my woman's love
Lovely lady you're inside of me
In the part that makes this life for me
So never leave me, stay there for all time.
Spinning round inside this heart of mine
With Two lips that love and never tell me no
Two eyes that see and set my heart aglow
Two arms that hold me like no one could know
I could never leave my woman's love
