

# Don Williams, Then It's Love

Some people say that love is a rose  
Maybe they've hit it right on the nose  
But other folks say that it's like the sun  
Well a long time ago daddy said to me  
I'll help you clear up the mystery  
I'll give you a simple rule of thumb  
If it knocks you off your feet  
Then it's love, then it's love  
If it makes your life complete  
Then it's love, then it's love  
If it turns you upside down  
Then it's love, then it's love  
The dictionary won't tell you much  
If love is the word you're looking up  
I don't believe that the definition's right  
And the encyclopaedia won't reveal  
The crazy way you start to feel  
Kissing on a moonlit summers night  
So gonna say that love is a game  
Maybe compare it to a flame  
Or say it's a medicine that heals  
But a band of experts could fight all night  
And never figure out which one is right  
But they'd agree on how it makes you feel  
Well if it makes your world go round  
Then it's love ooh ooh ooh.
