

Don Williams, You've Got A Hold On Me

Another lonely night and every passing hour
Makes it harder to fight I'm still under your power
You've got a hold on me
Won't let me be
You're not even her I'm in love with the memory
Another morning alone
I don't even remember
How many battles you've won and I can't even surrender
You've got a hold on me
Won't let me be
You're not even her I'm in love with the memory
Another day with the blues
Don't know how I'll get through it
I've got your memory to lose
And I don't know how to do it
You've got a hold on me
Won't let me be
You're not even her I'm in love with the memory 2x
